

# Description

“Grout Rescue” is a powerful colour sealer that penetrates deep into grout to add a fresh, new appearance that will renew the look of any tile installation. “Grout Rescue” colour sealer is available in 8 stylish colours, when fully cured, permanently seals the grout to help protect against mould, mildew and staining.

# Application Instructions

## STEP 1: Prepare Grout Surface

Make sure the grout joint is thoroughly clean and dry before applying “Grout Rescue” colour sealer.

## STEP 2: Application

**SHAKE BOTTLE BEFORE USE.** If using more than 1 bottle of a single colour for an application, mix all material together in a larger container prior to use to ensure colour match and consistency.

Colour sealing of grout joints around porous tiles are not recommended. i.e. unglazed tiles and natural stone surfaces.

Spread the colour sealer evenly onto the grout surface using a good quality brush or sponge working it deeply into the surface using a back-and-forth motion. For best results, apply two coats (1-3 hours drying time between coats).

## STEP 3: Clean Up

Excess colour sealer is easily removed from the edges of the tiled surface. Use warm water, a sponge or damp cloth approximately 5-10 minutes after applying to the grout surface. Take care not to wipe the surface of the grout joint causing any damage to the application of the treatment.

## Drying Time

“Grout Rescue” colour sealer is dry to the touch after 20-30 minutes and is ready for a second coat after 1-3 hours (depending upon grout porosity and room temperature). “Grout Rescue” colour sealer is ready for light foot traffic after only 2-4 hours, normal foot traffic after 24 hours, and heavy, commercial traffic after only 72 hours. Always allow a minimum of 48 hours drying time before wetting or cleaning the treated floor area.

## Packaging

8 fl. oz. (237 ml) bottle.

## Storage & shelf life

Product shelf life is 36 months when unopened and stored at room temperature. Store product in original container only. Close cap on container after each use. Use only when surface temperatures are between 50° F – 90° F (10° C – 32° C).

## Grout Rescue Coverage Chart

Tile Size	Grout Joint Width		
	1/8" (3 mm)	3/16" (4.5 mm)	1/4" (6 mm)
1" x 1" (25 x 25 mm)	–	50 sq ft (4.7 m <sup>2</sup> )	–
4" x 4" (10 x 10 cm)	200 sq ft (18.6 m <sup>2</sup> )	95 sq ft (8.8 m <sup>2</sup> )	80 sq ft (7.4 m <sup>2</sup> )
6" x 6" (15 x 15 cm)	225 sq ft (20.9 m <sup>2</sup> )	110 sq ft (10.2 m <sup>2</sup> )	95 sq ft (8.8 m <sup>2</sup> )
8" x 8" (25 x 25 cm)	250 sq ft (23.2 m <sup>2</sup> )	125 sq ft (11.6 m <sup>2</sup> )	110 sq ft (10.2 m <sup>2</sup> )
12" x 12" (33 x 33 cm)	300 sq ft (27.9 m <sup>2</sup> )	145 sq ft (13.4 m <sup>2</sup> )	125 sq ft (11.6 m <sup>2</sup> )
16" x 16" (41 x 41 cm)	360 sq ft (10.2 m <sup>2</sup> )	175 sq ft (16.3 m <sup>2</sup> )	135 sq ft (12.5 m <sup>2</sup> )

Coverages are approximate and given as a guide, due to site conditions coverage's may vary.

# 8 Great Colours

choose your swatch.

Below is our current range of 8 stylish pre-selected colours. These tints will permanently colour and seal any grouted areas.

# Incredible results every time.

**“Grout Rescue” colour sealer can restore even the dirtiest, damaged and ugly grout to a new look finish.**

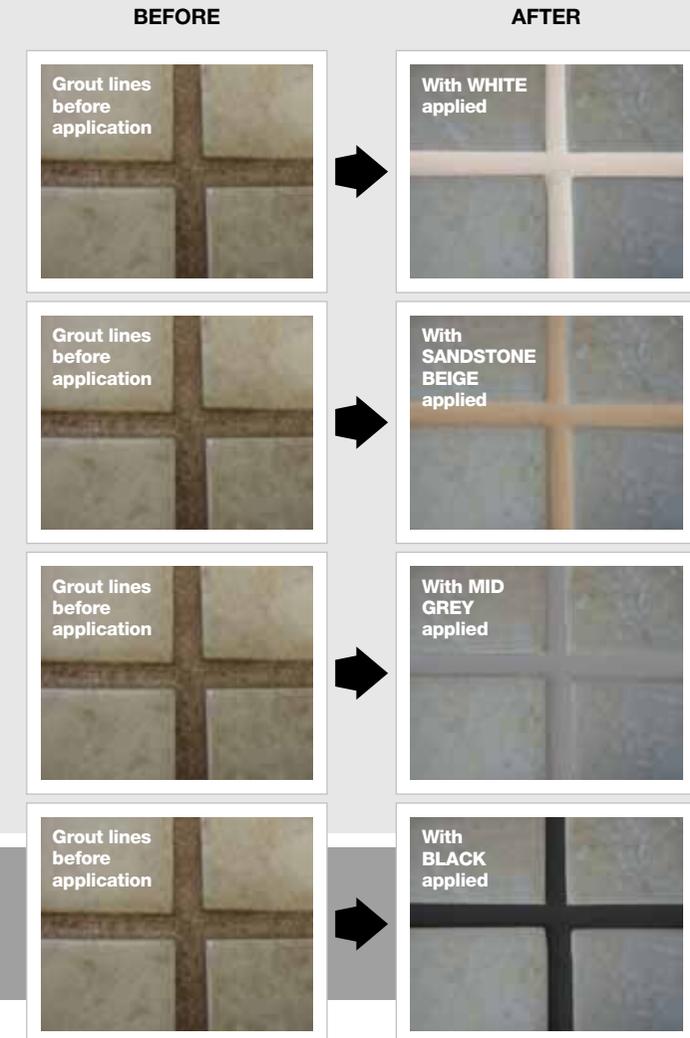

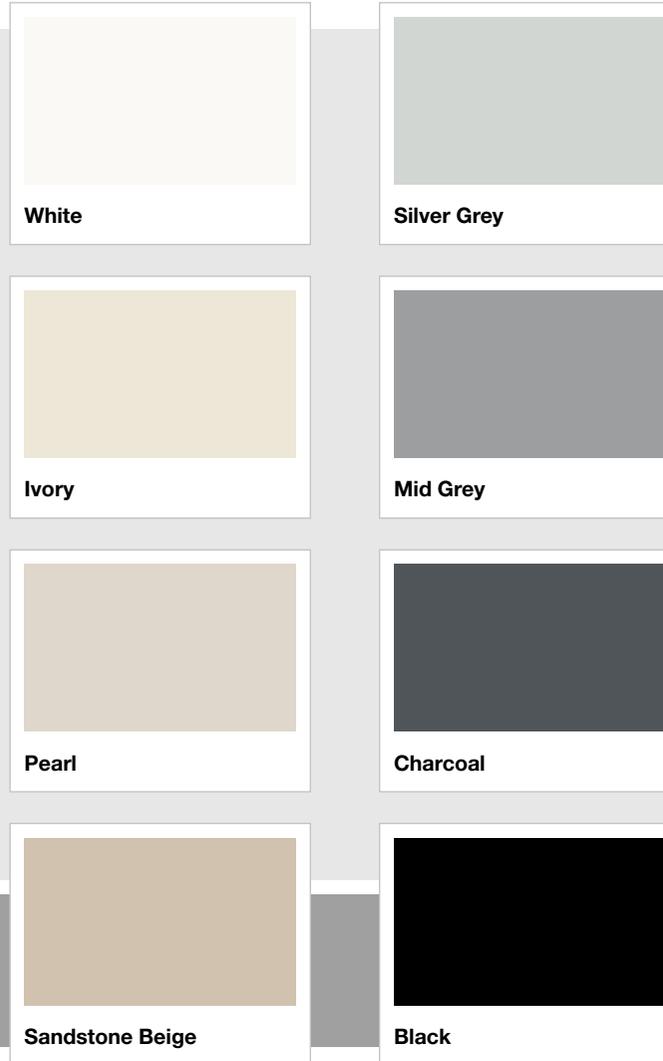

**Universeal “Grout Rescue” grout colour sealer is a great way to restore and renew your wall and floor grout to a better than new condition.**

In many instances when the grout has become permanently stained and no amount of cleaning can bring back the original uniform clean look of the grout. In these cases it is best to apply **“Grout Rescue”** grout colour sealer to restore the grout to a permanently sealed even coloured finish.

**“Grout Rescue”** colour sealer can restore even the dirtiest, damaged and ugly grout to a new look finish. This process will permanently colour and seal the grout to make the grout look even better than the day it was installed. **“Grout Rescue”** colour sealer is safe and simple to use, this unique formula allows for easy application by the professional tradesman and DIY homeowner.

Once the **“Grout Rescue”** colour sealer is applied and fully cured it will provide the ultimate level of sealing protection for your grout. Spillages that would have previously stained left to stand, simply wipe up clean with a damp cloth or sponge. For regular cleaning and maintenance of your tiled floor, it is very important that you use **Universeal “Easy Clean” pH neutral cleaner**, using any other cleaner may damage and reduce the longevity of the **“Grout Rescue”** treatment.

Now, you can colour your grout work with our range of stylish colours, as shown in our swatch set. We've pre-selected a good range of 8 colours, but depending on your requirements, we can provide further colours if you need a particular colour/tint.

Note: These swatches provide a near match to the actual product, however, as you may expect, print processes cannot match the colours 100% accurately, so if colour matching is crucial, we recommend you find a stockist and see the product colours in store. Universeal will not be responsible for any colour matching problems as it remains the final responsibility of the user to confirm colour suitability.
